

Product guarantee

For crystalline solar modules from the

SOLARA M-Series

SOLARA Power M-Series

SOLARA Power mobil

Solara GmbH provides the original system operator (end customer) a **product guarantee** (1.)

Under 2.: **Guarantee claims** are subject to the conditions specified for both guarantees.

End customers are those who purchase modules for personal use (and not for the purpose of resale). These guarantee terms do not apply to retailers, installation companies or second-hand purchasers of the modules.

1. Product guarantee

1. Solara GmbH (hereinafter referred to as 'SOLARA') guarantees the original operator (ultimate purchaser) that the supplied modules will remain free of material and manufacturing defects for a period of five years from the day of delivery in accordance with the terms and subject to the conditions of the guarantee.

2. In the case of a guarantee claim, SOLARA shall remove any defects at its own discretion, exchange the module for a functioning module of the same type, or reimburse the current market value of the affected module. If it is no longer possible to replace the module due to a model update, SOLARA will replace the module with a newer model of equal value. SOLARA does not guarantee to offer replacement products that are new or like new. SOLARA is furthermore entitled to supply used and/or refurbished products as replacements. If it is not possible provide a suitable replacement part for the module, SOLARA shall refund the cost of the module based on the value of the product at the time of the claim.

2. Guarantee claims

1. SOLARA must be informed in writing of any defects detected on the day of delivery to the original operator. This claim must be made immediately (and within the exclusion period of one month at the latest). If defects are subsequently discovered, SOLARA must be informed of these defects in writing within a month of their discovery.

2. In the event that warranty claims are asserted, the guarantee holder must make every attempt possible to include any installers or wholesalers previously involved in the case.

3. A copy of the invoice/delivery note must be included with the claim letter.

- Photographs of the module field
- Open-circuit voltages and operating currents of all strings
- System wiring diagram
- Serial number(s) of the affected component(s)

4. Modules may only be returned upon prior written agreement with SOLARA.

5. The costs for testing or repairing will be taken by the SOLARA, if the component had a defect

6. The provision of guarantee services does not extend the warranty period.

3. Warranty exclusions

The product and performance guarantees shall be rendered null and void in the event:

- Installation of photovoltaic system by unqualified technicians or not in accordance with current accepted technical standards
- Improper assembly or failure to observe SOLARA'S assembly guidelines
- Installation of photovoltaic system with improper substructure or non-observance of structural conditions
- Improper or insufficient system layout and/or system configuration
- Any unplanned modifications to products by the guarantee holder or a third party
- Non-performance of periodic function checks of the system and solar module configuration(s) or performance of said checks using measuring and testing procedures not approved by SOLARA
- Damage of the front panel by guarantee holder or external influence
- Improper cleaning of the modules according to cleaning procedures not approved by SOLARA
- Any damage caused by extraordinary environmental and/or weather conditions, smoke or soot, salts, corrosion, acid rain, chemicals, kerosene and/or other types of deposits or foreign substances, etc.
- Force majeure, e.g. damage caused by earthquakes, hurricanes, volcanic eruptions, floods, landslides, frost, hail, snow, avalanches, flying objects, direct and/or indirect lightning strikes, vandalism and/or theft and/or other unpredictable events
- Installation of solar modules to relate in a system to get a compensation for electricity fed into the grid. This guarantee does not cover damage or liability claims in particular for losses of any type of income received for the generated power
